 - DACD modifies the vision
 - DACD, in conjunction with ISR personnel who have indicated an interest in doing so, establishes and implements a yearly theme

and projects to realize the vision

- Maintain communication with those interested in working with DACD to become a force for change – perhaps, as was suggested at the ISR Climate Survey review meeting, establish a mailbox for communication
- Discuss adopting a community orientation – define what our vision of ISR as a community would look like
- Physical storage for Perspectives' and other materials
